To Whom It May Concern,

Dynamic Services, LLC is a certified American Red Cross Licensed Training Provider working with the American Red Cross Preparedness, Health & Safety division. Dynamic Services, LLC work with private and government businesses to help create a strong, OSHA-compliant safety, preparedness and emergency response program.

As a result of responding to more than 70,000 disasters a year, the American Red Cross has developed tools and resources to help businesses implement a comprehensive, organization-wide safety, preparedness and emergency response program. We found that the key to a successful program lies in planning, consistent training, and regular check-ins. We also discovered that in order to reach the masses, we would need assistance from like-minded businesses.

The Licensed Training Provider Program provides us with the mechanism to incorporate like-minded businesses and reach the masses. Whereas, some businesses have become Licensed Training Providers and have provided training for a few organizations here and there, Dynamic Services, LLC has proven to be more invested than most and have provided training for several organizations and have established them as one of the top performing Licensed Training Providers in the region. They have truly set themselves apart with their dedication and professionalism.

Dynamic Services, LLC offers the utmost customer service and they put pride into their work and it's my pleasure to recommend Dynamic Services, LLC for any training project, whether private industry and/or government.

Regards,
